SUMMARY

Dedicated enthusiast in the coding industry for many years, till I eventually transitioned to web development to pursue my passion. Proficient in both front-end and back-end development, I specialize in JavaScript, React, Express, Python, and various SQL/NoSQL databases, among other tools. My comprehensive understanding of full-stack development enables me to seamlessly connect the front-end and back-end, resulting in the creation of cohesive and manageable websites. I'm dedicated to staying current with evolving technologies, a fast learner with strong problem-solving abilities, and excel in effective communication and collaboration, making me a valuable asset to any team.

SKILLS

Technical skills

HTML	CSS	JavaScript	React	Next JS	Tailwind CSS	Python	Command Line/Shell Scripting
Node.js	Express	MongoDB	API Integration	Database management (SQL, NoSQL)		Docker	Testing

Soft skills

Problem-solving	Time management	Adaptability	Teamwork	Creativity	Organization	Empathy

EXPERIENCE

Customer Service Agent

Extensya

12/2021 - 04/2024 Remotly

- Collaborated with the product development team to identify and address common issues, resulting in a 30% decrease in product-related complaints.
- Trained 15 new customer service representatives.
- Implemented a new ticketing system that reduced average response time to customer inquiries by 50%, leading to an increase in overall team efficiency.
- Resolved an average of 50 customer complaints per day, resulting in a 95% customer satisfaction rate.

Distribution volunteer

Knowledge is Power Program (KIPP)

07/2019 - 11/2019 Iraq

- Coordinated logistics for the distribution of essential supplies to over 10,000 internally displaced refugees in camps, ensuring efficient and timely delivery.
- Implemented a tracking system to monitor the distribution process, resulting in a 25% decrease in lost or misplaced supplies.
- Collaborated with local organizations to organize community outreach programs and provide additional support to refugees, positively impacting the lives of over 5,000 individuals.

EDUCATION

Frontend Web Development

Re:Coded

09/2023 - 04/2024

- Re:Coded Immersive bootcamps are highly competitive, with a 5% acceptance rate.
- Completing a 6-month immersive web development bootcamp, with 300+ hours of curricula and project-based learning.
- Technologies: HTML, CSS, JavaScript, React, SQL, API, NodeJS, ...ect.
- Working with various development teams to create products across industries.

Basic Education / English Department

University of Zakho

2019 - Undergraduate

- Studied and analyzed a wide range of literary works, including novels, poetry, and plays, developing a deep understanding of literary themes and techniques.
- Attained fluency in the English language, excelling in both written and spoken communication.
- Acquired strong writing skills, producing essays, research papers, and creative writing pieces that demonstrate effective communication and composition abilities.
- Conducted extensive literary research using library resources and digital databases to support academic projects and essays.
- Successfully managed coursework, assignments, and exams, demonstrating strong time management and organizational abilities.

PROJECTS

Capstone Project: Restaurant Ordering App

Description: Developed a full-stack e-commerce website enabling restaurants and customers to place and manage online orders.

- Implemented responsive design using JavaScript, React, and Tailwind CSS.
- Integrated backend functionalities using Node.js, Express and MongoDB for seamless order management.
- Implemented secure authentication with JWT and Http-Only cookies to ensure user data safety.
